circumstances, upon request, the Company will notify the Client of its reasons for deactivating the Client Account, unless it is prohibited by Applicable Regulations for providing such notification. If the Company is prohibited by Applicable Regulations from notifying the Client, Client agrees that is a reasonable and fair position and outcome for the Client and for the Company to have taken such action and not to have given any notification.

PART TWO – CLIENT ACCEPTANCE AND PROVISION OF FINANCIAL SERVICES

7. Application and Commencement

7.1. After the Client validly and completely fills in and submits the Account Opening Application Form together with all the required identification documentation required by the Company for its own internal checks and to satisfy applicable KYC, anti-money laundering/counter-terrorism financing laws and regulations, the Company will send them a notice informing them whether they have been accepted as a Client of the Company. It is understood that the Company is not to be required (and may be unable under Applicable Regulations) to accept a person as its Client until all documentation it requires has been received by the Company, properly and fully completed by such person and all internal Company checks (including without limitation anti-money laundering/counter-terrorism financing checks, appropriateness or suitability tests as the case may be) have been satisfied. It is further understood that the Company reserves the right to impose additional due diligence requirements to accept Clients residing in certain countries due to the requirement under Applicable Regulations for a licensee or reporting entity to take a risk based approach when performing due diligence on Clients.

7.2. The Agreement will take effect and commence upon the receipt by the Client of a notice sent by the Company informing the Client that they have been accepted as the Company's Client or that a Client Account has been opened for them.

7.3 The Client acknowledges, understands and agrees that trading and investment in the Financial Products (including Margin FX and other CFDs) is speculative, may involve an extreme degree of risk and significant loss, and is appropriate only for persons who can assume risk of loss of their margin deposit.

8. Client Classification

8.1. According to Applicable Regulations, Clients are defined as either Wholesale Clients or Retail Clients. Please note that the Company treats all of its Clients as Retail Clients. The Company nevertheless reserves the right to classify you as a Wholesale Client if you meet the criteria as prescribed by the Corporations Act and Corporations Regulations. It may in its absolute discretion and without creating any obligation to, notify you if you are classified as a Wholesale Client.

8.2. Retail Clients are entitled to more protections under the Corporations Act and Corporations Regulations, than Wholesale Clients. In summary, these protections are as follows (the list may not be exhaustive):

- (a) A Financial Services Guide and a Product Disclosure Statement which

provide disclosures regarding the Company, its Services, the Financial Products, the nature and risks of such Financial Products, our costs, commissions, fees and charges and the storing of Client funds must be provided to a Retail Client.

- (b) A Retail Client will also receive a TMD, and we recommend reading this document as it outlines the target market, class of consumers, key attributes and other information relating to the issuance and/or distribution of the Financial Products by Xtrade.AU.
- (c) Where the Company is providing services in relation to over-the-counter (**OTC**) derivative contracts to Retail Clients, we will ask a Retail Client to provide information and complete a suitability questionnaire regarding their knowledge and experience relevant to the specific type of Financial Product or service offered or demanded, so as to enable the Client to self-reflect and assess whether trading in OTC derivatives is appropriate for them. In case the Company considers, on the basis of the information or questionnaire score received, that the Client does not have the necessary skills or experience, the Company will remind the client of the risks of trading in Margin FX and other CFDs and direct them to the appropriate educational resources. The Client must not proceed with their account opening without acknowledging the risk reminder.

On the other hand, the Company will be entitled to assume that a Wholesale Client has the necessary experience and knowledge in order to understand the risks involved in relation to those particular investment services or transactions, or types of transaction or product, for which the Client is classified as a Wholesale Client. Consequently, and unlike the situation with a Retail Client, the Company will not need to obtain additional information from the Client for the purposes of the assessment of appropriateness for those products and services for which they have been classified as a Wholesale Client (although the Company may do so in its discretion).

- (d) The Company must inform Clients of any material difficulties relevant to the proper carrying out of their Order(s) promptly upon becoming aware of the difficulty.
- (e) The Company is obliged to enter into a written basic agreement with Clients, setting out the essential rights and obligation of both parties.

8.3. It is understood that under the Corporations Act and Corporations Regulations, the Company has the right to change its policy and accept other categories of Clients as well and hence review the Client's Classification and change their Classification if this is deemed appropriate (subject to Applicable Regulations and appropriate agreement with the Client). The Company is not under any obligation to notify you should your classification as a Client change, however may notify you in its absolute discretion as a courtesy. It is your responsibility at all times to obtain your own independent advice and to proactively seek from the Company your classification as a Client.

9. Assessment

9.1. In providing execution of Client Orders services to the Client, as identified in sections 8.2(b) and (c) above, the Company is obliged under Applicable Regulations to ascertain a potential Client's knowledge and experience relevant to the specific type of OTC Financial Product (Margin FX or other CFD) or service offered or demanded, so as to enable the Client to self-reflect whether it is appropriate for the Client. Where a Client elects not to provide the information regarding their knowledge and experience, or where they provide insufficient information regarding their knowledge and experience, or where they fail to satisfactorily complete the suitability questionnaire, the Company may still provide the Client with services. The Company will assume that information about their knowledge and experience provided from the Client to the Company is accurate and complete and the Company will have no responsibility to the Client if such information is incomplete or misleading or changes or becomes inaccurate and the Company will be deemed to have performed its obligations under Applicable Regulations, unless the Client has informed the Company of such changes.

12.2. The Client may place Orders with the Company on the Platform and via telephone call, by using their Access Data and provided all the Essential Details are given in both cases.

12.3. The Company will be entitled to rely and act on any Order placed on the Platform(s) or via telephone call by using the Access Data, without any further enquiry to the Client and any such Orders will be binding upon the Client.

12.4. Orders are executed according to the Summary Best Interest and Order Execution Policy, which is binding on the Client.

12.5. The Company will use reasonable efforts to execute an

Order, but it is agreed and understood that despite the Company's reasonable efforts transmission or execution may not always be achieved at all for reasons beyond the control of the Company.

12.6. The Client hereby acknowledges and agrees that the Company may, in its sole discretion, add, remove or suspend from the Platform, any Financial Product, on any type of Underlying Asset or Market, from time to time in the event of a stock transformation event (for example as the result of a takeover, share consolidation/split, merger, spinoff, nationalisation, de-listing, etc.) or if no Client Positions are held in a particular Financial Product at that time.

Where the Company takes action because of an event in this section 13.1, upon request by the Client, the Company will notify the Client of its reasons for its action, unless it is prohibited by Applicable Regulations for providing such notification. APPENDIX ONE – CFD TRADING TERMS

1. Scope

1.1. This Appendix is applicable only to those Clients trading in the Financial Products of CFDs (including Margin FX).

2. Types of CFD Orders

2.1. The following two CFD Orders may be placed with the Company: market orders and pending orders.

3. Execution of Orders

3.1. In order to open a position on the Platform, the Client must either open a Buy or a Sell, at the price quoted on the Platform at the time of such Transaction. In order to close a position, the Client must either offer to Sell (in the case of a Buy), or purchase (in the case of a Sell), the Underlying Asset covered by such Open Position, at the price quoted on the Platform at the time of such closing. It is understood that every time the Client places an Order, the Company executes such an Order itself as a counterparty. However, the Company has the right to hedge Client Orders with a third party.

3.2. The Platform provides a Buy quote and a Sell quote for each Underlying Asset traded on the Platform. The Client acknowledges that upon opening a Buy or closing a Sell (or vice versa), they may only do so at the price quoted on the Platform to purchase such Underlying Asset.

3.3. Orders can be placed and (if allowed) changed within the Trading Hours for each type of Underlying Asset appearing on the Platform and/or the Website, as amended by the Company from time to time.

3.4. On the Platform, the Client will be entitled to make an offer to open a Position at the best available price on the Platform (“Market Order”) at the time of opening such a position, unless the Client specifies a particular price in which to make an offer to open a position (“Limit Order”). With respect to a Market Order, the price at which a Transaction is completed may not always be at the exact rate displayed when the Order is placed. The Client agrees that their offer to open a Market Order may be accepted at a lower price or higher price than the price indicated by them in their Market Order, within a certain range as specified on the Platform from time to time. If the Client chooses to open a Market Order, their offer will be accepted at the best possible price offered on the Platform.

3.5. With respect to a Limit Order, the price at which a Transaction is completed may not always be at the exact price displayed when the Order is placed. The Client agrees that their offer to open a Limit Order may be accepted at a lower price if a Buy, or higher price if a Sell, than the price indicated by them in their Limit Order as specified on the Platform from time to time. If the Client offers to open a Limit Order, their offer may be accepted at the price indicated by them in their offer. At any time prior to acceptance of a Limit Order, the Client may

cancel the Limit Order without any further liability. If the Client open a Limit Order, their offer will be accepted at the best possible price offered on the Platform.

3.6. The Client agrees that the Company may hedge or otherwise offset any Transaction with other third parties in order to offset any liability or risk associated with any of the Client's Transaction(s). In the event that the Company is unable to hedge the Client's Transactions with other third parties, the Company reserves the right to amend the content or terms of an CFD Order including the expiry date, the trading hours or any other parameters in the product details tab.

3.7. Pending Orders, not executed, will remain effective through the next trading session (as applicable).

3.8. Market Orders not executed because there is not enough volume to fill them, will not remain effective and will be cancelled.

3.9. All open spot positions will be rolled over ("Premium") to the next Business Day at the close of business in the relevant Underlying Market, subject to the Company's rights to close the open spot position. Any open forward positions will be rolled over at the expiry of the relevant period into the next relevant period subject to the Company's rights to close the open forward position.

3.10. Orders will be valid in accordance with the type and time of the given Order, as specified by the Client. If the time of validity of the Order is not specified, it will be valid for an indefinite period. However, the Company may delete one or all Pending Orders if the Client Account Equity reaches zero.

3.11. The Orders cannot be removed once placed. Pending Orders may be deleted or modified before they are executed.

3.12. The Client may change the expiration date of Pending Orders before it is executed by cancelling it and placing a new Order.

3.13. Stop loss and Take Profit orders may be changed as long as they are higher in distance than a specific level (depending on the trading symbol).

3.14. For an open CFD position that the Client holds in relation to a particular Underlying Asset and then subsequently closes partially, this position will be closed on a 'First in, First Out' basis (commonly known as FIFO) in relation to the multiple trades undertaken to build the particular position.

3.15. The Company is under no obligation, unless otherwise agreed in the Agreement, to monitor or advise the Client on the status of any Transaction or to close out any Client's Open Positions. When the Company decides to do so, this will be done on a discretionary basis and will not be considered an undertaking of an obligation to continue. It is the Client's responsibility to be aware of their positions at all times.

4. Quotes

4.1. In the event that the Company is unable to proceed with an Order, with regard to price or size or other reason, depending in the type of the Client Account, the Company will send a re-quote. The number of re-quotes appears on the Platform.

4.2. The Quotes appearing on the Client's terminal are indicative and are based on the relevant Underlying Markets. However, if there is high volatility in the Underlying Market the execution of the Order may change and the Client may obtain the first price that will be available in the market and not the market they requested.

4.3. The Company provides Quotes by taking into account the Underlying Asset price, but this does not mean that these Quotes are within any specific percentage of the Underlying Asset price. When the relevant Underlying Market is closed, the Quotes provided by the Company will reflect what the Company thinks to be the current Bid and Ask price of the relevant Underlying Asset at that time. The Client acknowledges that such Quotes will be set by the Company at its absolute discretion.

5. Stop Loss Orders, Trailing Stop and Expert Advisor

5.1. The Client agrees that trading operations using additional functions of the Client Trading Terminal such as Trailing Stop and/or Expert Advisor are executed completely under the Client's responsibility, as they depend directly on their trading terminal and the Company bears no responsibility whatsoever.

5.2. The Client agrees that placing a Stop Loss Order will not necessarily limit losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price and the Company bears no responsibility whatsoever.

5.3. The Client may add "Close at Loss" price or "Close at Profit" at any stage when the position is Open.

5.4. Upon the Client placing a limit Order, the Client authorises the Company to close the Transaction at the Close at Loss price or Close at Profit price, as applicable, and as agreed in the Order, without further instruction from or notification to the Client. The Company may close the Transaction when the price quoted by the Company on the Trading Platform equals or exceeds the price accepted by it for such an Order.

5.5. The Client acknowledges that the original price level set forth in a Close at Loss may be amended as the market on the Platform moves in their favour. Whilst their trailing Close at Loss is still in effect, the Client agrees that each change in the market by at least one hundredth of a percentage point (referred to as "Pips" on the Platform) in their favour will constitute a new offer by the Client to raise the level of their trailing "Close at Loss" by one hundredth of one percentage point. Changes in a Pip will be rounded to the nearest absolute value in the Currency of the Client Account.

5.6. The Client acknowledges and agrees that due to market volatility and factors beyond the Company's control, the Company cannot guarantee that an Order will be executed at the level specified in the Client Order, for example, an Order may be closed at a worse price than as originally specified by the Client in such an Order. In such an event, the Company will close the Transaction at the next best price. For example, with respect to a Close at Loss, in the case of a Buy to close, the price of an Underlying Asset may suddenly increase above the Close at Loss price, without ever reaching such price. In the case of a Sell to close, the price of an Underlying Asset may suddenly decrease below the Close at Loss price, without ever reaching such price.

5.7. With respect to a Close at Profit where the price for an Underlying Asset moves to the Client's advantage (for example, if the price goes down as the Client Buys or the price goes up as the Client Sells), the Client agrees that the Company can pass such price improvement on to the Client.

5.8. Guaranteed Stop Orders are only available on certain Underlying Assets, as indicated in the product details tab. If the Client places a Guaranteed Stop on a new Order the Company guarantees that when its bid or offer quoted price reaches or goes beyond the close at loss price specified by the Client, it will close the position at exactly the price the Client specified in the Guarantee Stop Order. An open position can be closed in accordance with this Agreement prior to reaching the Guaranteed Stop Order price level.

5.9. A Guaranteed Stop Order is subject to the following additional conditions:

(a) A Guaranteed Stop Order can be requested only on a new Order and is only available on close at loss conditions;

(b) A Guaranteed Stop Order can be activated or edited only when there is trading and an eligible Underlying Asset is available on the Platform;

(c) Once a Guaranteed Stop Order is accepted by us it cannot be removed - only the price can be changed;

(d) A Guaranteed Stop Order must be placed a minimum distance (as determined by the Company) away from the current Underlying Asset price being quoted by the Company;

(e) As the Company guarantees to close out price, the spread is adjusted for the additional charge when placing the Guaranteed Stop Order. The adjusted spread is displayed in the Underlying Asset details tab for each eligible Product at the time the Guaranteed Stop Order is placed.

6. Expiry

6.1. The Company may set an Expiry Date and time for a specific Underlying Asset. Such will be displayed on the Platform. The Client agrees that it their responsibility to check for the Expiry Date and time.

6.2. If the Client does not close an open Position with respect to an Underlying Asset which has an Expiry Date, prior to such Expiry Date, the Open Position will automatically close upon the Expiry Date. The Open Position will close at a price which will be the last price quoted on the Platform immediately prior to the applicable Expiry Date and time.

6.3. The Client acknowledges that certain Underlying Markets may become volatile or illiquid without warning. In such circumstances it may not be possible to execute Client Orders, particularly in the period shortly before an expiry.

7. Swaps / “Premium” – rollover interest

7.1. Any Open Position at the end of the trading day or over the weekend, will automatically be rolled over to the next business day to avoid an automatic close and settlement of the Transaction. The Client acknowledges that when rolling such Transactions to the next business day, a Swap will be either added or subtracted from their Client Account with respect to such Open Position. Information concerning the Swap for each Underlying Asset is displayed on the Platform. In deciding whether to open a position, the Client acknowledges that they are aware of the Swap.

7.2. The Swap is charged daily on the Client Account. The operation is conducted at 22:00 (21:00 DST) (GMT time) and can take several minutes.

7.3. The Client authorises the Company to add or subtract the Swaps fees to or from the Client Account for any open Transactions that have accrued such a fee, in accordance with the applicable rate thereto, each day at the time of collection specified on the Platform for each Underlying Asset, as applicable.

7.4. The Company has the right to amend in its discretion from time-to-time the calculation days or percentages of Swaps. Such changes will be affected on the Platform and/or the Website and the Client is responsible to check for updates regularly.

8. Spreads

8.1. All CFDs available with the Company have spreads which appear on the Platform and/or the Website. The Company has the right to amend its spreads in its discretion from time to time. Such changes will be affected on the Platform and/or the Website and the Client is responsible to check for updates regularly.

9. Margin Requirements

9.1. The Client will provide and maintain the Initial Margin and/or Hedged Margin in such limits as the Company, at its sole discretion and in line with the ASIC Order, may determine at any time under the Contract Specifications for each type of CFD.

9.2. It is the Client’s responsibility to ensure that they understand how Margin requirements are calculated.

9.3. Unless a Force Majeure Event has occurred, the Company has the right to change the Margin requirements, giving to the Client ten (10) Business Days Written Notice prior to these amendments for open positions. For new positions the Company may amend the Margin Requirements with one (1) Business Day's Written Notice. All changes will be affected on the Platform and/or the Website and the Client is responsible to check for updates.

9.4. The Company has the right to change Margin requirements without prior notice to the Client in the case of Force Majeure Event. In this situation the Company has the right to apply new Margin requirements to the new positions and to the positions which are already open.

9.5. For avoidance of doubt, the Company will ensure that the Margin requirements are in line with the ASIC Order and has no discretion to lower Margin requirements below the level mandated by the ASIC Order.

9.6. Without prejudice to section 13 of the Client Agreement, the Company has the right to close and or limit the size of Client open positions (New or Gross) and to refuse Client orders to establish new positions in any of the following cases:

- (a) The value of Client collateral falls below the minimum margin requirement.
- (b) At any time, the net equity of the Client Account is less than the higher of the amount required by the ASIC Order (the aggregate close out protection amount) or that required by the Company, to be held in the Client Account for the Client's Open Positions at that time that are connected to the Client Account.
- (c) The Company makes a Margin Call and the Client fails to meet it.

9.7. The Company may make Margin Calls to the Client automatically via the Platform when the Margin in their Client Account has reached a certain percentage. When the Platform warns the Client that it reached a certain percentage of the Margin in the Client Account, the Client should take any or all of the three options to deal with the situation:

- (a) Limit their exposure (close trades); or
- (b) Hedge their positions (open counter positions to the ones they have right now) while re-evaluating the situation; or
- (c) Deposit more money in their Client Account.

The Client is required to log-in to the Platform on a daily basis when they have open positions to ensure they receive notification of any such Margin Calls. It is the Client's sole responsibility to monitor and manage their open positions and exposures, and ensure Margin calls are met as required. Where the Client has not checked the trading platform for Margin call notifications, and so has not met them in a timely manner, all margined positions will be closed out by the Company, without further reference to the Client;

9.8. If the Client fails to take action according to section 9.7 or when the Client reaches 50% of the Margin in the Client Account, their positions will start closing

automatically (Stop Out level of 50%) starting with the most losing Order and the Company has the right to refuse any new Orders. The Company is required to take this action as a consequence of the ASIC Order.

9.9. Margin will be paid in monetary funds in the Currency of the Client Account. Should the client deposit money in a different currency the Company will make a conversion into the Currency of the Client Account according to section 18 of the Client Agreement.

9.10. The Client undertakes neither to create nor to have outstanding any security interest whatsoever over, nor to agree to assign or transfer, any of the Margin transferred to the Company.

Termination takes place. It is the Client's responsibility to ensure the required level of Margin exists for each Client Account separately.

10. Negative Balance Protection

10.1. If the Client, being a Retail Client for the purposes of this section 10, incurs a liability through trading CFDs, our recourse is limited to the money in the Client's Client Account, whether;

- (a) deposited by the Client; or
- (b) paid into the Client Account by the CFD issuer in relation to dealing in a CFD by the Client; or
- (c) received or deposited into the Client Account, irrespective of whether this was associated with CFD trading.
